

NEW FUEL TANK PROCEDURE

- 1** Open the lid of the fuel tank

- 2** Unlock hose using the spool pin on the right hand side of the hose

- 3** Pull out hose and insert nozzle into the tank

- 4** Walk to smart fuel terminal to purchase fuel

- 5** Press 1 to begin transaction

- 6** Press 7 to select fuel pump & select desired amount to spend

7 Return to fuel tank and turn switch to "ON"

8 Move blue lever to vary speed and fill tank

9 Switch "OFF" at fuel tank when done

10 Roll hose back using the blue winch

11 Lock hose reel using the spool pin

12 Shut the fuel tank lid

Please note: After 15 seconds of inactivity the hose will cut out and you will have to begin the process again by reactivating a transaction at the Smart Fuel Terminal.

*Lowest Speed 125 L Per Min - Highest Speed 185 L Per Min
